## VISION & NEEDS

ON MISSION TO TRANSFORM LIVES IN UGANDA THROUGH THE GOSPEL, EDUCATION, HEALTHCARE, AND SUSTAINABLE OPPORTUNITIES

### NEW SCHOOL

One school can transform this entire region with the gospel! Building L&M's school gives hope and a future—breaking the cycle of poverty, protecting the vulnerable, strengthening families, and transforming the community. Without a school, kids are trapped in generational poverty; plus, they are at high risk for child labor, trafficking, malnutrition, young pregnancies, and starvation.

FROM HUNGER TO HOPE:  
HELP PROVIDE FOOD  
FOR NEW SCHOOL CHILDREN

### SURVIVAL TO SUSTAINABILITY:

In Uganda, many people have skills, ideas, and determination to improve their livelihoods but lack the initial resources.

A key goal for L&M is to start income-generating businesses such as farming, chickens/goats/cows/pigs, bakery, tailoring, carpentry, hair salon, and clinic...while pointing their hearts to Jesus.

### CHURCH PLANT

There is no other Christian church in the area; most are hearing the gospel for the first time! In the surrounding mud-hut community, there are many spiritual needs which can only be met by Christ. It is amazing to see God adding to the church weekly those who are getting saved!
